

To Our Prospective Guests

Subject: *Coming to Odysseus*

Dear Friends,

You certainly do not expect to meet Hippocrates promenading around the island's streets, or seeing Odysseus beaching his sea-beaten craft in your Hotel's shore, or coming upon any Hellenes in clamydes and sandals...

But in the spring you certainly see, flowers carpet the meadows by the Aegean Sea, and burst out cracks in the rocks. Or watch the fishermen, having grounded their boats for the winter, to launch them and go out fishing again, just as they were doing, 5000 years ago. Or take a plunge or two at Homer's "wine dark-sea", - the Aegean. And, going out in the early morning you'll meet with a unique beauty, the "rosy fingered night's daughter".*

It remains the same for several thousand years.

You certainly can bank on legend and tradition, as in no other nation are the shadows of History and Mythology so long and so persistent, the sunlight so bright, and the colour of the sea so radiant.

* *"The night's daughter - rosy fingered Dawn – appeared in the East" – It's daybreak in the Aegean, as Homer used to see it.*

You do not miss the chance to enjoy the charms of this ancient country. You simply have, to let your senses, feelings and thoughts, to gallop free and out of every day's routine. You, then, may even discover the Greek – Athenian or Spartan – hidden deep in the heart of civilized people.

The staff in this Hotel always stands by your side and at your service, to guide and intimate you on the secrets of a dream holiday, to have fun and exercise. As, to test your mettle on a variety of sports like mini soccer, rock climbing, tennis, zumba lessons, water sports to mention but a few of your choices.

After an active day full of entertainment and exercising, enjoy special facial and body treatments at the Spa Center and reach the revitalization of body and mind.

Then relax at one of the resort's rooms or suites, with their modern design standing out for both their comfort and aesthetic.

What expects you next is a unique gastronomic experience at the hotel's restaurants. Chef's proposals, including local specialties and international flavours, create a delicious culinary journey. But mind the trap that our crafty-artist cook has set up for you, you'll need here all your mettle to defend your fitness and appearance.

Best regards
Odysseus
